SUMMARY

As a dedicated Software Tester with 1.5 years of experience and a strong background in marketing and e-commerce, I am eager to contribute my skills to innovative projects and advance in the software engineering field. I bring a deep understanding of various testing tools and methodologies, strong analytical skills, attention to detail, and the ability to work well both independently and as part of a team. By combining my marketing expertise with software testing experience, I am confident I would make a valuable addition to a company looking for a software tester.

Work authorization: Temporary residence for 2 years in Sweden.

SKILLS

Software Testing, Postman, Git, Chrome DevTools, Jira, Charles Proxy, JavaScript, HTML/ CSS, Agile/Scrum, React.js, Web APIs, Webstorm, VS Code, E-commerce marketing, Google Analytics.
